Features of the Investors Group iProfile Managed Asset Program:

WORLD CLASS INSTITUTIONAL INVESTMENT MANAGERS

A selection of some of the world's best-known investment managers work together on a single investment platform.

THE ABILITY TO ESTABLISH DIFFERENT ACCOUNTS WITHIN A CONSOLIDATED REPORTING FRAMEWORK

Registered and non-registered accounts can both be held within a common reporting structure, which can be constructed with differing investment goals.

CUSTOM INVESTMENT GOAL MATCHING

In addition to being able to track portfolios separately, it is also possible to assign a different portfolio for each financial goal based on time horizon and your risk tolerance.

PROVEN STRATEGIC ASSET ALLOCATION METHODOLOGY

Third party architecture involving some of the world's foremost experts designed to provide you with superior risk adjusted returns.

TAX-DEFERRED CASH-FLOW

The return of capital option can provide you with cash-flow, without incurring an immediate tax liability. This feature may also assist in reducing claw backs of income tested benefits.*

Benefits of iProfile:

FEE DEDUCTIBILITY

Your client advisory fees are generally deductible for income tax purposes with non-registered portfolios. Please consult your tax advisor for further details.

COMPETITIVE ENTRY POINT

The initial iProfile investment is set at \$250,000, however, you do not have to meet this threshold as an individual investor. You may open an iProfile portfolio as long as the cumulative iProfile investment of all members of your household is at least \$250,000.

MANAGE THE MANAGERS

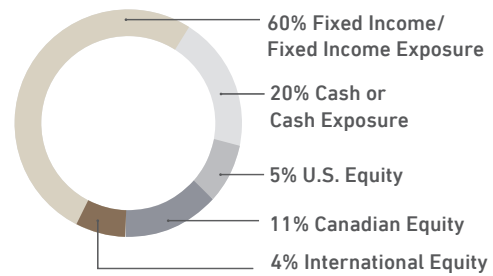

All managers go through a vigorous selection process and are subject to ongoing performance measurement. Advisors who do not meet performance targets may be replaced.

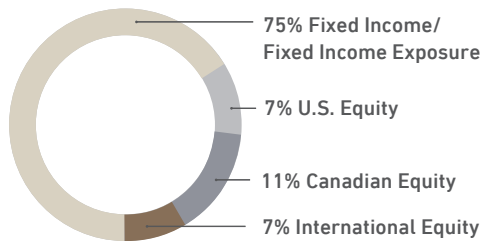

Your iProfile portfolio

Your iProfile portfolio can be fully customized to meet your investment objectives. The examples shown here are just a small sample of the portfolio options available.

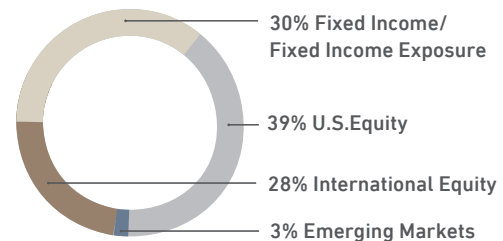

Conservative Investment Profile Including Money Market Investments

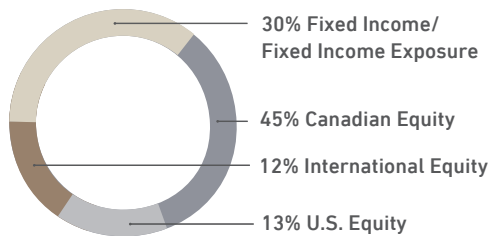

Conservative Investment Profile Holding No Money Market Investments

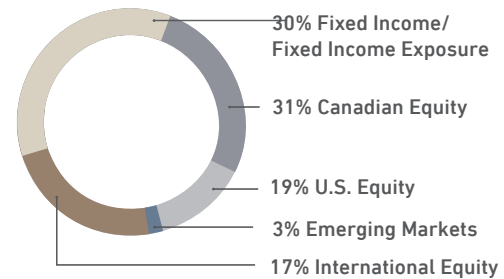

Moderate Investment Profile for Investors Focused on International Investments

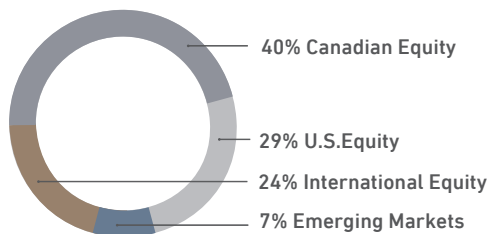

Moderate Investment Profile with Limited Foreign Exposure

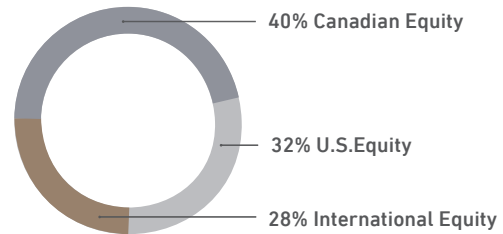

Moderate Investment Profile Including Emerging Markets Exposure

Aggressive Investment Profile Including Emerging Markets Exposure

Aggressive Investment Profile Excluding Emerging Markets Exposure

Trademarks, including Investors Group, are owned by IGM Financial Inc. and licensed to its subsidiary corporations. Commissions, fees and expenses may be associated with mutual fund investments and the use of iProfile™ Managed Asset Program. Read the prospectus and speak to an Investors Group Consultant before investing. Mutual funds are not guaranteed, values change frequently and past performance may not be repeated. Recommendations relate only to Investors Group mutual funds. An asset allocation service, iProfile is a managed asset program for clients with a minimum of \$250,000 invested in the iProfile program.

* Receiving return of capital distributions reduces the adjusted cost base of your investment, which could result in a higher taxable capital gain or lower deductible capital loss at the time of redemption.
