

# Maestro Portfolios™

A dynamic approach to long-term investing

Maestro Portfolios combine a long-term investment management outlook with dynamic asset allocation strategies to adapt to shorter-term market movement. The goal: Risk management and enhanced returns as you continue to build your wealth.

\* The Investors Group Corporate Class mutual funds, including the Maestro Portfolio Classes, are shares issued by Investors Group Corporate Class Inc.™

Maestro Portfolios might be perfect for you if you want to:

- Have a more active management approach to your investments
- Let our experienced portfolio management team take care of day-to-day investment decisions
- Obtain cash-flow, and/or long-term growth from your investments

Maestro Portfolios take risk management to the next level

Diversification is a core element of any long-term risk management strategy. Each Maestro Portfolio is expertly crafted to diversify your investment across a range of asset classes, sectors, geographies and investment styles. By adding a dynamic asset allocation component, Maestro Portfolios go one step further, aiming to manage volatility over a shorter time horizon.

Tax-efficient options to manage your wealth

You've worked hard to build your wealth. Plan to keep more of it with Maestro Portfolios' tax-efficient investment options, such as Series T<sup>1</sup>, which provides tax-efficient steady monthly cash flow for non-registered accounts.

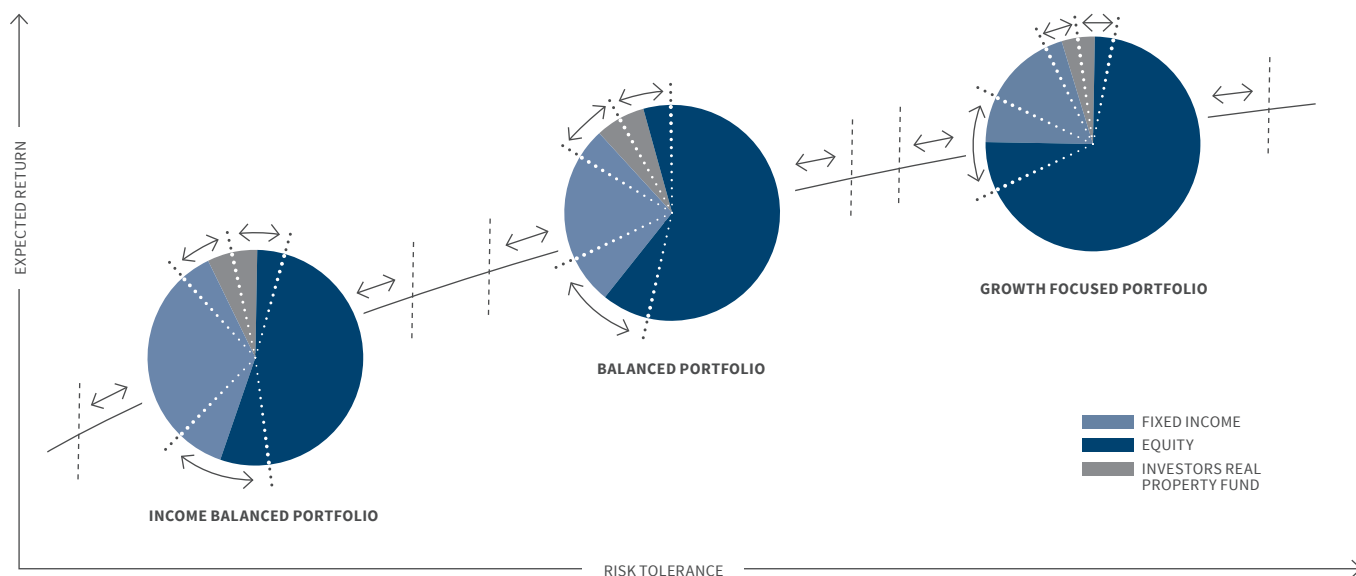

<sup>1</sup> The cash flow amount for Maestro Portfolios are set at the end of each year on or about December 31 for the next year as a percentage of the net asset value per share/unit, but may be adjusted or discontinued if determined to be in the best interest of each Maestro Portfolio.

# What is **dynamic asset allocation**?

Maestro Portfolios are designed for flexible and responsive investment management. Our experienced portfolio management team can adjust asset class exposure, within a pre-determined range, to reflect their view of current market conditions.

## **Maestro Portfolios take a multi-layered approach to dynamic asset allocation which may include:**

- Adjusting exposure to non-retail fixed income and equity pools exclusive to Maestro Portfolios
- Shifting exposure among underlying Investors Group funds
- Changing exposure to bond maturities, global markets and currencies, or other key market elements

*For illustrative purposes only. Actual holdings may vary from those shown above.*

## Experienced portfolio management

Our seasoned investment team has intimate knowledge of the market and economy, and their impact on each asset class. Our rigorous, analytical, and research-based process aims to manage market volatility, enhance returns, and improve your overall experience.

## Why it could work for you

Choose Maestro Portfolios to experience a sophisticated and tailored approach to investment management.

We can help you choose the Maestro Portfolio to complement your your investment plan. Maestro Portfolios are available for non-registered and registered accounts (RRSP, RRIF, LIF, TFSA, RESP).
